

# SIGN DESIGN AGREEMENTS

## COMPREHENSIVE SIGN CODE RESEARCH

We'll search codes, talk to the municipal planner, and advise on ways to maximize your sign's viewability.

## SITE SURVEYS

You'll get photos of the building exterior, interior, and streetside to see the monument/pylon signs from different angles. PLUS, we'll provide precise measurements for each sign opportunity. We'll review access for sign installation and electrical connections.

## DESIGN SERVICES

Get a mockup of your sign's appearance on the building, interior, exterior, and street side.

## PAPERWORK

We'll handle the paperwork. We'll complete the sign permit process via electronic filing or by attending a planning commission meeting.

## You need an SDA if you...

- Want **clear expectations** for sign design, revisions, deadlines, and costs.
- Want a **specific scope of the work** for your signage project.
- Need to maintain **confidentiality** for any sensitive information.
- Want to **define the responsibilities** for the sign company and for you/your client.

\*\*Depending on the municipality, the SDA process can take 4-6 weeks.\*\*
